

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections in my opinion.

- In regard to Indiana's Telephone Privacy law - I use to receive numerous calls (probably 5+ per day) wanting to solicit something. Since this law went into effect I have enjoyed NOT being interrupted by persistent and often times rude telemarketers. While studying with my children, or working out of my home, I don't have to worry about the interruption of an UNNECESSARY phone calls. PLEASE do not change anything about Indiana's current law. It is great. I am grateful to Attorney General Steve Carter for doing this for my family and I. Respectfully submitted, Jeff Hayes
